TO WHOM IT MAY CONCERN - RE COLLIE-PRESTION ELECTORAL
BOUNDARY

I read in the local paper that the Western Australian Electoral Commission may be changing the boundaries of electorates before the next election. I went to your website and see that if anyone who is interested they can put their comments in writing. I spoke to a few of my workmates and they are not happy either that the boundary might be changed.

In the Collie Shire there are many mining and construction jobs. Most of the workers in these jobs are from Collie, Bunbury and other small towns close by.

I know the terrain in the electorate of Collie-Preston is mainly made up of forest but of course we also have the mining industry. The mining industry is also about to expand with more workers expected into the town when the Perdaman Chemical's proposed urea plant comes to fruition. As well as this bringing more workers to town, there will also be an influx into the town with their families.

All the people I have spoken to are happy with the electoral boundary as it is and do not think that there would be any benefit or reason to change it. They have asked to be included in my letter so I have attached a separate page of their signatures.

We would like to ask that you give your upmost consideration to leaving the Collie-Preston electoral boundary as it is or only making minor changes.

Thanking you

Yours faithfully

WD Langer (and others as attached on page 2)
