Objection to the Redistribution

The map in your booklet shows the eastern boundary of the Legislative Assembly seat of Riverton as being defined by Duff Road. If the electorates are to be given the names of suburbs it seems reasonable that all of the suburb named should in the electorate. Riverton's eastern local government boundary is defined by the natural feature Bannister Creek, which is about 300 metres east of Duff Road.

The solution to my objection would be to make the electorate boundary match the local government boundary, as I am not impressed that, under the current proposal, I live in the suburb of Riverton, but am not in the electorate of Riverton.

Yours faithfully

I. F. Ford
