Re: Comments upon Suggestions to the 2015 Western Australian Electoral Redistribution

Dear Commissioners

The Greens (WA) are pleased to note the quality and diversity of suggestions made. As anticipated by the Commissioners in their preliminary observations, the suggestions can be categorised as representing an approach of either minimal change, incremental change, or fundamental change.

In our view Western Australia's significant population growth, being distributed unevenly across the state and across existing districts, makes a minimal change approach extremely difficult.

We wish the Commissioners well in their deliberations, and look forward to the publication of the proposed boundaries.
