To whom it may concern.

In the light of information received, I find it extremely difficult to understand the value, certainly to the people in the area of changes, particularly for the proper/valued representation of the country people this affects.

Such people is having their country representation diminished beyond belief!!

As it is at the present people in the Regions have very little say/representation ! This is proposal serves only to accentuate this situation ...making it worse!

If boundaries must be looked into there must be a FAIRER way of implementation, respecting the value of the country regions.

Please consider the real consequences of what you are suggesting.

Francis Moran

(living & travelling in the country regions!)
