Subject: Wanneroo Business Association comment: State Boundary Review - Butler

Wanneroo Business Association (WBA) encourage the WA Electoral Commission to ensure that Yanchep and Two Rocks remain within the electoral boundary of the Butler district.

With over 370 members, and on behalf of businesses from across the region, the WBA acknowledges that Yanchep and Two Rocks are integral to the future growth of our local area, and should remain within the Metropolitan area, and the district of Butler, to ensure their success.

With key infrastructure expected in the region, such as the extension of the rail to Yanchep, and the future development of the Mitchell Freeway North, Yanchep is set to transform and become a major employment hub serving the northern corridor of Perth. As a priority for job creation, it is vital that the suburb of both Yanchep and Two Rocks remain within the district of Butler, and continue to be identified as part of the northern Perth Metropolitan area, rather than an outer metro rural suburb.

Kind Regards,

Lauren Bell
