Query:

I wish to strongly voice my opposition for Esperance to be lumped in with Wagin etc under the proposal being put forward in the new electorate boundary shuffle.

Esperance has nothing to do with this area, we are strongly linked with Kalgoorlie in many areas and can only think that we will be better represented by someone who knows the associations and common interaction. We are very isolated and need to be connected with another strong area that we have things in common with to be truly represented and have our voice heard.

I am also very upset that yet again the country representation is again being cut back. The current representatives already have huge areas to cover and, though population wise we may be smaller the wealth produced from these areas is immense and we need to have an effective say in political matters.
