The U.A. Electoral Commission:  
Dear Sir or Madam,

I am writing to ask why the electoral boundaries are being re-defined? For what purpose?

If it is to create more seats in the Metros are and less in the country then I object. The country needs more people, not less, to be heard and explain what is required for those of us living outside of the "City".

It, on the surface, looks like a grab for more power by certain political parties and, if this is the case I certainly object.

Perhaps someone could send me more information and explain what the benefits are supposed to be?

I look forward to your reply.

Thank you.

Yours Sincerely

D. Softley
