Dear Redistribution Commissioners,

I wish to advise of my objection to the electoral boundaries you have proposed for the Legislative Assembly.

I believe any decision to replace another regional electorate with a metropolitan one is both disturbing and demoralising. I would think it would further diminish the influence of regional Western Australia, a voice already restrained by government policy and crucially needed as regional communities confront various challenges. This suggested reconfiguration seems to undervalue the essential need to preserve shared community interests. It overlooks countless expressions from regular Western Australians advocating for the retention of 16 regional seats. Disappointingly, it also dismisses thoughtfully crafted proposals that present a clear case for preserving the current level of regional representation in compliance with the Electoral Act.

Regional electorates, which already cover larger areas, demand regional MLAs to navigate greater distances, represent more diverse communities, and judiciously distribute their funding allocations across more expansive areas. The merging of regional seats risks voter exclusion due to the increase in already sizable constituencies. It also threatens to centralise power in metropolitan areas, causing an imbalance in representation where urban concerns overshadow regional interests. The proposed boundaries disregard the need to preserve the unity of our communities and dismiss public advocacy for the continued existence of the current 16 regional seats. This move signals the continuation of a worrying trend that has stripped regional voters of 18 crucial upper house representatives. Since the 1987 redistribution, 12 lower house seats have been stripped from regional WA. These considerations necessitate a rethink of these boundary alterations to secure fair representation for all Western Australians.

Of the many changes proposed, I object most strongly to
