To The Commissioners Concerned.
Dear Commissioners,
I strongly object to the proposed changes to the Legislative Assembly areas of W A.

By reducing the number of electoral sections within the western Australian State will further divide the rural area from the City electorate.
By losing one voice of the lower House will further exacerbate the imbalance of power.

The sheer distance imbalance between the City and Country electorates must be addressed.
Inner City electorate members could walk around their total electorate before breakfast whereas the Country electorates are so large that it take all day to drive across a couple of them.
The rural Members spend thousands of hours traversing their electorates which they have to do to service their area's.
I maintain that this Boundary redistribution must be abandoned before the whole State becomes any more City centric than it already is.

Please reconsider this proposed move before it's too late.

Yours sincerely
Robert Millard
