Dear Electoral commission,

I am writing to express my concerns at the changing of the electoral boundaries which would see the seats of Moore and North West Central abolished and amalgamated into the seat of Mid West, for the creation of another metro seat, Oakford.

As a business owner in the Moore electorate, I feel that the impact to our area will affect the economic stability, as items will be passed in the government that will be detrimental to us all without having a fair and even representation. As Moore area is already a large electoral area, it seems to increase this is an over step of authority for the means of so called political gain. The metro have a majority representation as it is. We are already seeing a demise in the medical facilities, education, age care, the basics to keep people in country areas. A loss of another seat will only make this situation worse.

This is another nail in the coffin for the country people who will not get fair representation in the parliament. The government seems to forget that the country is what feeds the state and with the many restrictions and laws being brought in that affects us, we need an even voice for us. The areas have very different challenges as they are totally different in all aspects, business, communities.

To make this one electoral area is unacceptable, it is going to be the people that are being disadvantaged, and will suffer, as they will not get what they need, as will not be heard.

Yours

Len Choules
