

Western Australian Electoral Boundary  
Review Submission

from

Michael Proud

The state of Western Australia is required [Electoral Act 1907 s. 16E] to be divided two years after an election into the requisite number of Legislative Assembly districts.

Section 16G of the Electoral Act sets out the numerical boundaries of each district. The **average district enrolment** at the time of division is 30,342. The districts created through this review must be within 10% of this figure, unless they contain a **large district allowance**, determined under s16G(4), when the lower figure can be 20% below the average.

My suggestion contains several districts where there is a large district allowance. My calculations contain estimates of these.

Section 16I sets out the factors that the Commissioners are required to consider in drawing the districts. Section 16J allows the Commissioners to modify by adding portions to them and excising portions from them.

My suggestions include maintaining the boundaries of the following districts without change:

- Bateman
- Bunbury
- Darling Range
- Geraldton
- Kingsley
- Kwinana
- Maylands
- Thornlie

A table of enrolments and LDAs for each of the proposed districts is attached.

I have not provided maps of these currently existing districts.

Attached are maps for each of the suggestions. In addition, I have provided an Excel spreadsheet for Australian Bureau of Statistics SA1 data demonstrating the construction of each district.

Michael Proud

<b>Proposed Electorate</b>	<b>Enrolment</b>	<b>LDA</b>	<b>Total</b>
Albany	33411		33411
