The Electoral Distribution Commissioners

The West Perth Local community is currently divided by a boundary that runs along the Mitchell Freeway, Malcolm Street, and Kings Park Road. This has resulted in the main section being included in the district of Nedlands, while the southern section falls within the district of Perth. As a result, the area represented by West Perth Local is fragmented.

There are currently 836 electors living in the section of West Perth/Perth/Kings Park located to the west of the Mitchell Freeway. To equalize enrolments, it is proposed to transfer this group of electors to the district of Nedlands. This would provide a clear and continuous boundary between the districts of Perth and Nedlands, which is already well recognized.

Overall, this redistribution will help to ensure that the West Perth Local community is represented in a more cohesive and meaningful way, and will allow for a more balanced distribution of electors across the relevant districts.

Regards
Bruce Reynolds co Chair West Perth Local Community Group
